

| Test Case ID | Test Scenario | Test Case Title |
|--------------|------------------------------------|--|
| TC_LF_001 | (TS_001) Login Functionality | Validate logging into the Application using valid credentials |

| | | |
|-----------|------------------------------------|--|
| TC_LF_002 | (TS_001) Login Functionality | Validate logging into the Application using invalid credentials (i.e. Invalid username and Invalid Password) |
| TC_LF_003 | (TS_001) Login Functionality | Validate logging into the Application using invalid username and valid Password |

| | | |
|-----------|------------------------------------|--|
| TC_LF_004 | (TS_001) Login Functionality | Validate logging into the Application using valid username and invalid Password |
|-----------|------------------------------------|--|

| | | |
|-----------|------------------------------------|--|
| TC_LF_005 | (TS_001) Login Functionality | Validate logging into the Application without providing any credentials |
|-----------|------------------------------------|--|

| | | |
|-----------|------------------------------------|---|
| TC_LF_006 | (TS_001) Login Functionality | Validate logging into the Application using Keyboard keys (Tab and Enter) |
|-----------|------------------------------------|---|

| | | |
|-----------|------------------------------------|---|
| TC_LF_007 | (TS_001) Login Functionality | Validate username and Password text fields in the Login page have the place holder text |
|-----------|------------------------------------|---|

| | | |
|-----------|------------------------------------|--|
| TC_LF_008 | (TS_002) Login Functionality | Validate the Password is not visible in the Page Source |
|-----------|------------------------------------|--|

| | | |
|-----------|------------------------------------|--|
| TC_LF_009 | (TS_001) Login Functionality | Validate Logging into the Application, closing the Browser without loggingout and opening the application in the Browser again |
|-----------|------------------------------------|--|

| | | |
|-----------|------------------------------------|---|
| TC_LF_010 | (TS_001) Login Functionality | Validate user is able to navigate to Login page despite of visiting an athrowised page directly |
|-----------|------------------------------------|---|

| Pre-requisites | Test Steps |
|--|--|
| <ol style="list-style-type: none"> 1. Open the Application URL (https://http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT) in any supported Browser 2. Login credentials for an existing account are required | <ol style="list-style-type: none"> 1. Click on 'Login' option 2. Enter the valid user name 3. Enter the respective password 4. Click on Login button |

| | |
|--|---|
| 1. Open the Application URL (https://http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT) in any supported Browser | 1. Append the 'new' or any keyword end of URL |
|--|---|

| Test Data | Expected Result (ER) | Actual Result | Priority |
|---|--|---------------|----------|
| <p>Username: deepa Password: deepaforum</p> | <p>1.User should be navigated to Login page 2.User should get logged in and taken to the 'Home' page</p> | | |

| | | | |
|--|---|--|--|
| Username: deepas Password: dipaforum | 1.Ensure url should be passed like below http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT/login 2. Should have same login page | | |
| Username: razzak Password: deepaforum | 1.Ensure url should be passed like below http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT/login 2. Should have same login page | | |

| | | | |
|--|--|--|--|
| <p>Username: razak Password: depaforum</p> | <p>1.Ensure url should be passed like below http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT/login 2. Should have same login page</p> | | |
|--|--|--|--|

| | | | |
|----------------|---|--|--|
| Not Applicable | <p>1.Ensure url should be passed like below http://localhost:8080/DeepaSpringBoot-0.0.1-SNAPSHOT/login</p> <p>2. Should have same login page</p> | | |
|----------------|---|--|--|

| | | | |
|----------------|--|--|--|
| Not Applicable | <ol style="list-style-type: none">1. Tabs and Enter functionalities should visit components2. User should be able to log into the application | | |
|----------------|--|--|--|

| | | | |
|----------------|--|--|--|
| Not Applicable | 1. Proper place holder text should be displayed inside the 'username' and 'Password' text fields | | |
|----------------|--|--|--|

| | | | |
|----------------|---|--|--|
| Not Applicable | 1. Password text should not be visible in the Page source | | |
|----------------|---|--|--|

| | | | |
|---|---|--|--|
| <p>Username: razak Password: deepaforum</p> | <p>1. Loggedin Sesion should be logged out after reopen</p> | | |
|---|---|--|--|

| | | | |
|----------------|--|--|--|
| Not Applicable | 1. User should be navigate to LOGIN page | | |
|----------------|--|--|--|
